a luxurious oasis of relaxation

This December the new Hotel Guarda Golf will open its doors in Crans Montana. As the region's first all year round five-star hotel it is situated right by the golf course amidst nature and the majestic alpine landscape of the Valais, prepared to offer any possible amenities to their guests.

Exceptional location in the heart of Crans, full south orientation, directly on the fairway of the golf course, and 5 minutes on foot from Crans city centre, the Hotel Guarda Golf will offer a cozy atmosphere and a personalized service.

This new and innovative five star hotel, fashioned in a modern yet characteristic alpine style, reveals a unique concept and philosophy. The Hotel Guarda Golf is adjacent to the golf course and counts twenty-five rooms and suites – outfitted exclusively with natural materials –, two gourmet restaurants, a lounge and the gorgeous Guarda Golf SPA, an extensive wellness area carved in stone and featuring an indoor pool, whirlpool, sauna, Hammam and four treatment rooms. This is the first spa in the world using exclusively products of the Brazilian cult label Beauty by Clinica Ivo Pitanguy. Hotel guests and day visitors alike are welcome to enjoy the unique mix of leisureliness and active experience: the "Jack Nicklaus" 9-hole golf course situated right in front of the hotel and the adjacent 18-hole golf course designed by former world champion Severiano Ballesteros lure golfers in summer and cross-country skiers in winter.
